

Superglue WK-110

WK 110 is universally applicable and fast, and can be used for absorbent and porous materials such as rubber, wood, leather and cork. Highly suitable for plastic and metal compounds. Simple, secure, high strength and precise.

Technical data:

Appearance: colourless clear
Chemical base: Ethyl
Viscosity: 95 - 200 mPa·s at +20 °C

Setting time on:

Metal (Steel): 5 - 40 sec.
Elastomer: 5 - 10 sec.
Plastic: 2 - 4 sec.

Shear strength on steel: 10 - 20 N/mm²
Density: 1,06 g/cm³
Temperature range: -55 °C - +95 °C

Shelf life:

9 months from date of supply if stored between +20 °C

Packaging:

WK-110 is available in 20 g containers. VPE = 20 pcs.
Item no: 1211101100020

WK-110 is available in 50 g containers. VPE = 10 pcs.
Item no: 1211101100050

WK-110 is available in 500 g containers. VPE = 1 pcs.
Item no: 1211101100500
